By this constant maneuvering for surprise, they keep the public from losing interest in the industrial battle. Their patrols are constantly going over to France to get new information to bring back in order that a small flank or frontal attack can be carried out with success. They do not permit women to feel confident of their clothes because they were well chosen in October.

Details of Changes.

It might make interesting reading to run over the fashions of last month and those of this month at the points where they differ. In other days, we would have called it the stabilization of fashions, for November was the month to expect that kind of shaping down into settled serenity after the turmoll of October. But one does not feel that anything is stabilized today. not even in the apparel business, especially under the stimulus of new con-

It might better be explained by say ing that this month, much has been discarded that was considered first class in October. Those who showed their gowns late in the season practically eliminated many of the overpopular French models that arrived in September. Avoid crowds, coughs and cowards,

but fear neither germs nor Germans! Keep the system in good order, take plenty of exercise in the fresh air and practice cleanliness. Remember a clean mouth, a clean skin, and clean bowels are a protecting armour against disease. To keep the liver and bowels regular and to carry away the poisons within. It is best to take a vegetable pill every other day, made up of May-apple, aloes, lolan, and sugar-coated, to be had at most drug stores, known as Dr. Pierce's Pleasant Pellets. If there is a sudden onset of what appears like a hard cold. one should go to bed, wrap warm, take a hot mustard foot-bath and drink copiously of hot lemonade. If pain develors in head or back, ask the druggist for Anuric (anti-uric) tablets. These will flush the bladder and kidneys and carry off poisonous germs. To control the pains and aches take one Anuric tablet every two hours, with frequent drinks of lemouade. The pneumonia appears in a most treacherous way, when the influenza victim is apparently recovering and anxious to leave his bed. In recovering from a bad attack of influenza or pneumonia the system should be ballt up with a good herbal tome, such as Dr. Pierce's Golden Medical Discovery, made without alcohol from the roots and barks of American forest trees, or his Irontic (iron tonic) tablets. which can be obtained at most drug

stores, or send 10c, to Dr. Pierce's Invi-

package.
